

# *Prototype Station*

100's of Drop-In Components

1 Launch Geometry

1 RF Probe

Solderless Assembly

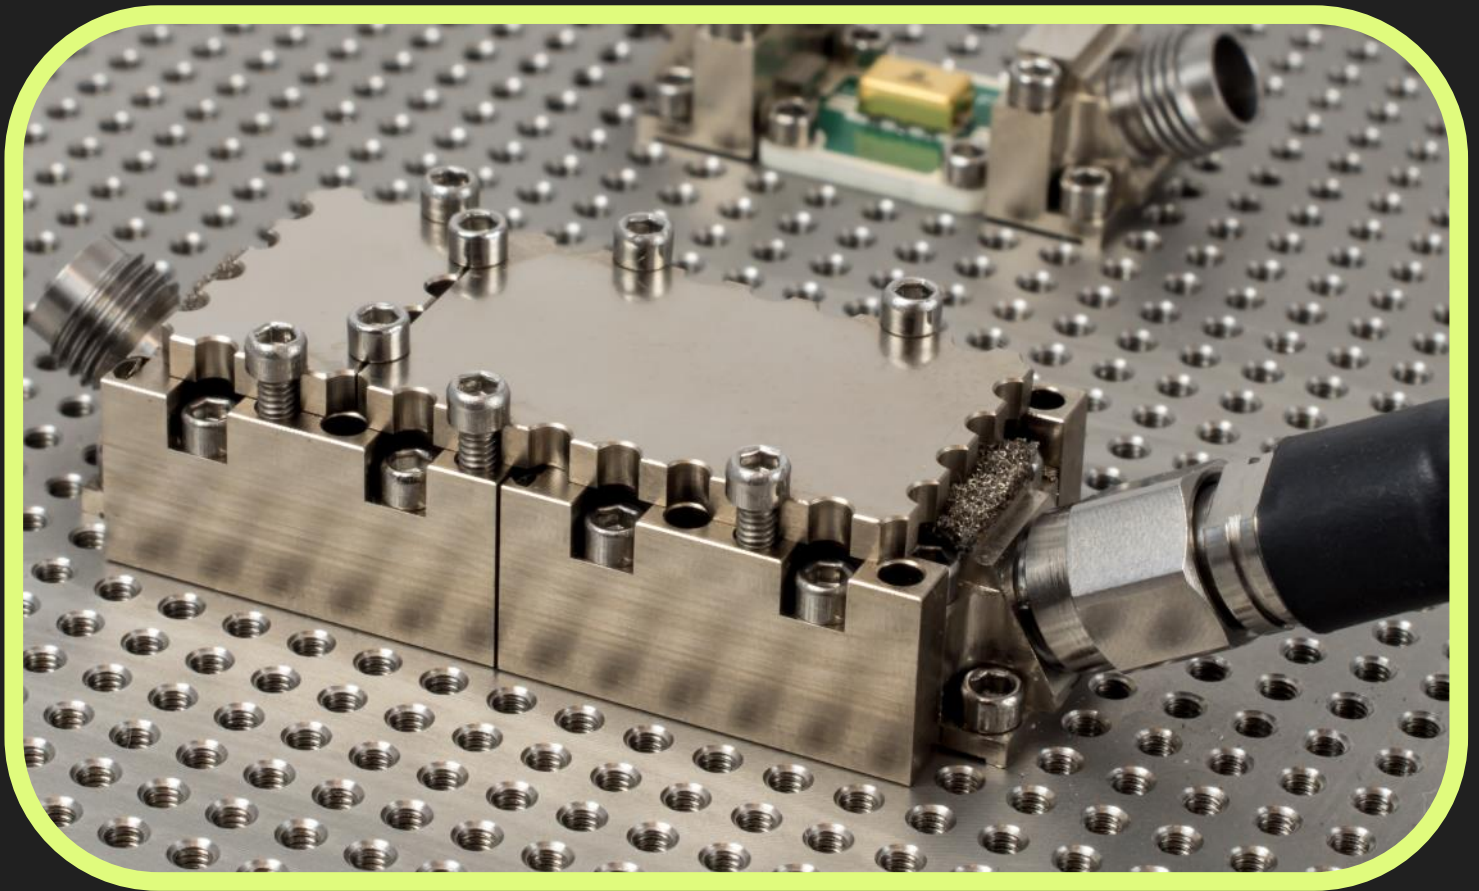

## Features:

- Rugged Stainless Steel Construction
- 1-72 Threaded Holes
- Square Hole Pattern 0.135 x 0.135
- H-Frame Construction for Control / Bias Circuitry
- Modular Walls and Lids Simulate Cavity Effects

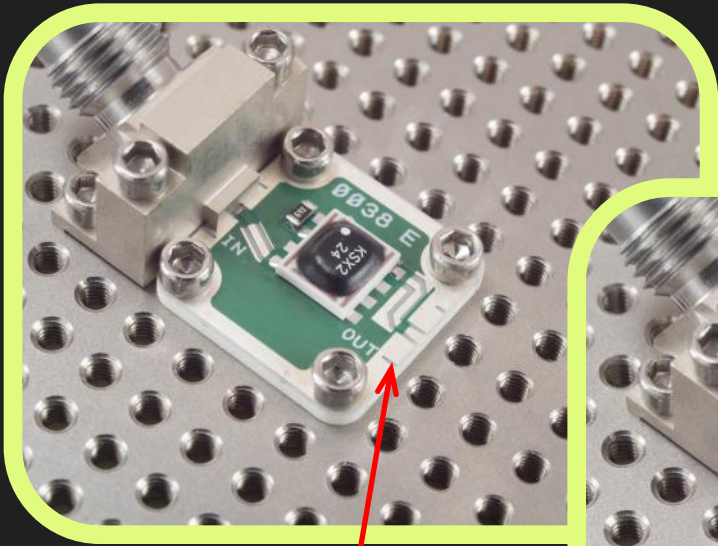

## Applications:

- Probe-Test-Model X-MWblock Components
- Cascade-Align-Test System Prototypes
- Component Qualification Testing

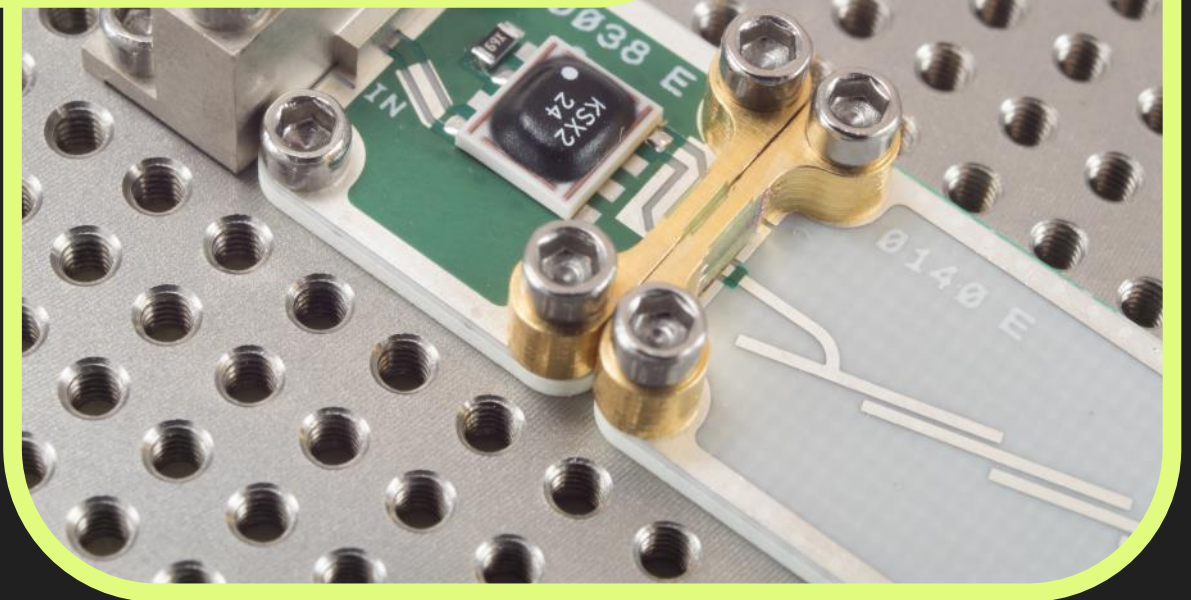

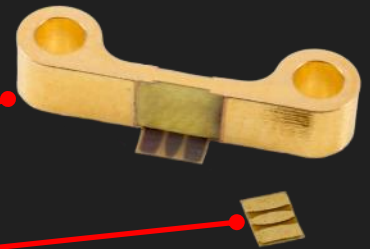

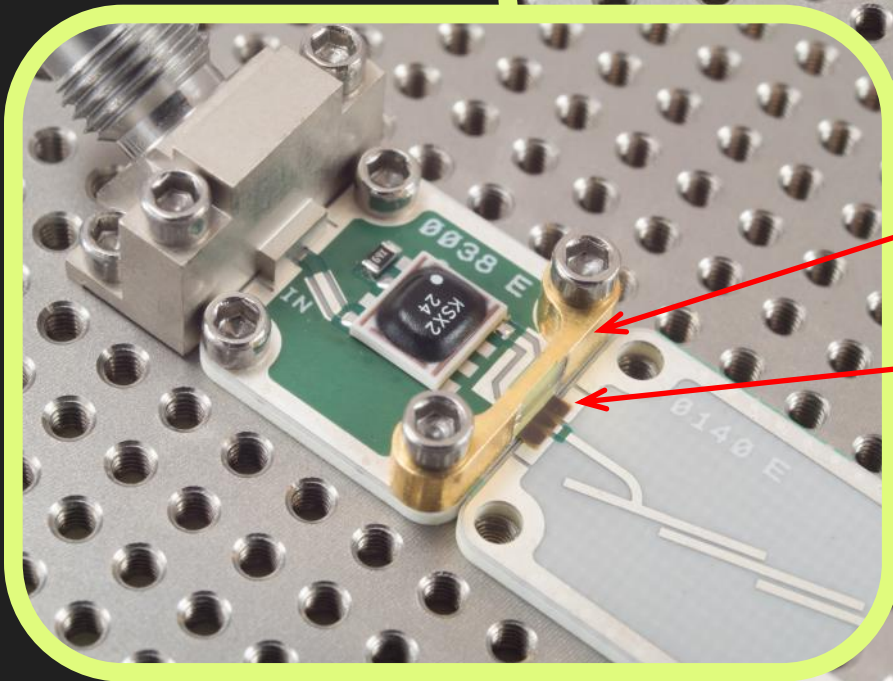

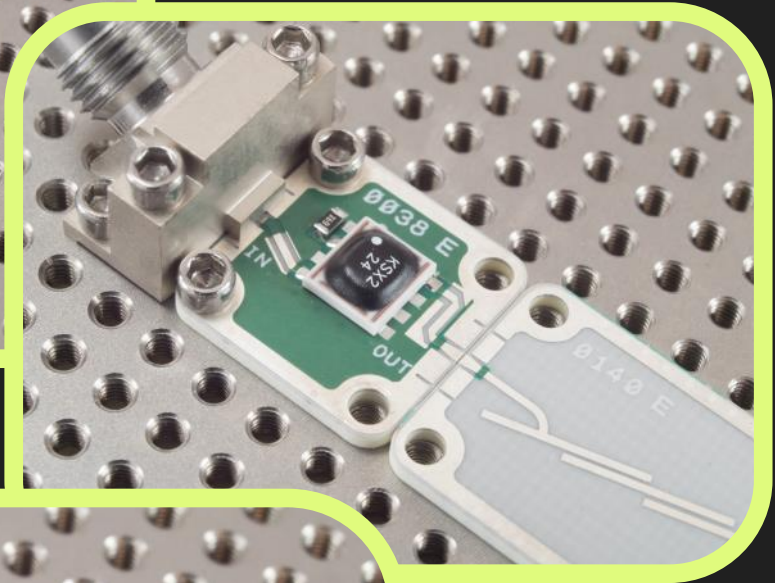

# Solderless Interconnects

Launch Geometry

# Prototype Station Starter Kit

- (Qty 1) Prototype Plate
- (Qty 2) RF Probes (1.85mm)
- (Qty 2) Test Cables (1.85mm Male to 2.92mm Male)

## X-MWprotostation Kit
